

# Level 2 Adult Social Care Certificate

The Level 2 Adult Social Care Certificate has been designed to ensure people in care roles have the most up-to-date knowledge and skills. It also supports staff to succeed in their roles.

The qualification provides the key knowledge and skills required for the 'new to care' role in the care workforce pathway. Employers may therefore decide it is appropriate for a new care worker to complete the qualification alongside employer-specific induction and mandatory training.

For those who may have been in the sector for several years and deserve to be acknowledged for the skilled care they provide, the qualification will also provide a route for them to gain a recognised qualification.
